DISPLAY BOOK

NEW STYLE RONDofile 20 AND 30

NEW

An advancement has been made on the *Rondofile 20* and *Rondofile 30* display folders. The front and back hard covers are fixed into one continuous cover panel. The spine area is now more rigid, does not bend easily and gives a neat overall book shape to this folder. Included are an inner cover clear pocket and an elastic loop to keep the folder secured. The metal binder ring has been "slimmed down" to give the display book a more compact design.
